

# Construction Technician

## Position Responsibilities:

As a *Construction Technician*, you will play an important role in the support of construction activities within our mining operations. The ideal candidate will have experience working in remote or rugged environments and a solid understanding of civil, structural, or mechanical construction in mining settings. This role involves hands-on technical work, supporting the build and maintenance of mining infrastructure. Specific responsibilities include, but are not limited to:

- Assist in the setup, execution, and closeout of construction projects across our mine sites.
- Read and interpret construction drawings, blueprints, and specifications.
- Operate and maintain tools, equipment, and machinery safely and efficiently.
- Assist in quality control checks to ensure alignment, level, and specification requirements.
- Perform material handling, site clean-up, and basic rigging as needed.
- Communicate feasible solutions to overcome barriers to change.
- Document daily work progress, issues, and site observations accurately.
- Operation of heavy equipment: excavator, dozer, skid steer, backhoe, and loader.
- Commitment to safety in all aspects of work.

## Job Requirements

- This is an hourly position that involves working outdoors in varying weather conditions.
- Ability to work in physically demanding environments, including lifting, standing, walking, and operating equipment.
- Ensure compliance with environmental regulations and best practices in all work-related activities.
- Must be able to recognize hazardous conditions, follow company safety policies and practices and to engage in a strong safety culture.
- Applicants must be legally authorized to work in the U.S.
- A valid driver's license is required.
- The successful candidate will be required to submit to mandatory drug and alcohol testing prior to employment.

## Qualifications:

- High school diploma or GED required, technical certifications or construction management training a plus
- Minimum 2+ years of experience in construction roles in mining, oil and gas, or heavy civil environments.
- Strong knowledge of mining construction practices, equipment operations, and safety regulations.
- Ability to read and interpret construction drawings and specifications
- Physically fit and able to work in remote and challenging outdoor conditions, with the ability to lift up to 50 lbs, climb ladders, work at heights or confined spaces, and stand/walk for extended periods.
- Basic computer skills for reporting and documentation.
